

Save West Windsor Drive: Say NO to the Windsor Extension Project

In an effort to shift traffic from Cross Timbers (FM 1171), the City of Flower Mound Transportation Commission has proposed extending West Windsor Drive to meet up with Long Prairie Rd (FM 2499). This will create another entrance into Bridlewood and change West Windsor Drive from a residential street into a major thoroughfare. This increased traffic will endanger our children who use the trail along this road and reduce the enjoyment of our homes.

Please join me in rejecting this plan.

David McCourt, 3400 West Windsor Drive
